

WOOL CHARNÉ

The Australian woollen fabric that delivers high-end quality whilst safeguarding the animals behind it.

Wool Charné is Australia's answer to high quality woollen fabric that guarantees humanitarian husbandry techniques for the Charmac Merino sheep that produce the wool.

Charmac Merinos are a plain skinned sheep with minimal wrinkling and clean breech. This strain of Merino sheep is not subject to mulesing.

Wool Charné has been custom tailored for designers and buyers of high-end fabric. The weave delivers a light and notably smooth fabric with an exquisite drape.

Note: Wool Charné has not yet been publicly released and is currently not available for order. Should designers require no further modification to the weave, orders for Wool Charné will then be sought. The fabric will proceed to production, taking six to nine months, when small quantities of this exclusive fabric will be available.

Wool Charné will be publicly exhibited for the first time at 'Rosemont Farm' at an Open Day to be held on June 22nd 2012 at 10am.
